

REMARKS

In the above-referenced Office Action, the Examiner required election of any one species or one set of figures of the same species in Figures 1A-8.

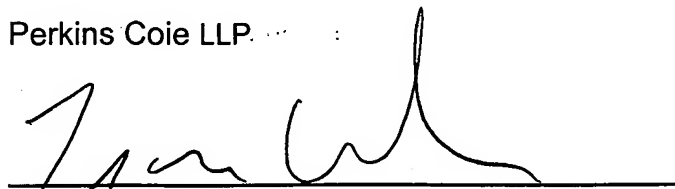

In response, the applicants elect the species directed to Figures 1A-5A, claims 1-7, 9 and 11, without traverse. Figures 1A-3C illustrate a process for forming a microfeature package, Figures 4A and 4B illustrate different views of the package, and Figure 5A illustrates the package connected to an external device in accordance with an embodiment of the invention. Claims 8 and 10 have been withdrawn without prejudice to consideration of these claims upon allowance of a generic claim. The foregoing election is made with the understanding that the Examiner and the U.S. Patent and Trademark Office are now bound to a finding of non-obviousness between each of the species. Claims 40-45 were previously canceled in a response filed June 29, 2005 to an earlier Restriction Requirement.

Upon allowance of the generic claims, applicants expressly request consideration of claims to additional species which are written in dependent form or which otherwise include all the limitations of the allowed generic claims.

No fees are believed due with this communication. However, the Commissioner is hereby authorized and requested to charge any deficiency in fees herein to Deposit Account No. 50-0665.

Respectfully submitted,
